We, the jury, declare that the dead came to their death by hyxiation caused by an explosion of giant powder on the 1,200aspayantation of the Daly-West mine in Park City, Summit county, foot level of the Daly-West mine in Park City, Summit county, state of Utah. It is our unanimous conviction that the underound magazine was the principal cause of the disaster, and rec-mend that hereafter the use of all magazines under ground be inscentinued, and we further pray that a state law be enacted to bolish all underground magazines.

At the inquest attorneys attempted to learn from the witnesses whether dargy was a man of sufficient experience to be intrusted with such a respontion. Twenty-five witnesses were subpoenaed to testify, including an Nimmo and Shift Boss Hennessey of the Daly-West.

The inquest into the death of the miners occupied the afternoon and ras resumed at 7:30 tonight. Numbers of witnesses were called, but no stimate of the amount of powder in the magazine at the time of the sion was learned. After an hour and a half the jury returned their

O'Neill was found lying at the lettom of a winze, his head resting on a stick of wood. A great pool of blood from his ears and mouth lay near. DRIVING OUT THE GAS.

Pumps have been worked almost constantly to free the level of impure air, but even today the rescuing party was compelled to take pure air down into the mine. It was done by means of long lines of hose. Engines are still pumping and it is believed that by tomorrow morning the levels will have been freed of the poisonous vapors. Carpenters will then go to work on the shaft and parties be sent out to search for Burgy.

The dead are being shipped away as fast as relatives are heard from. A majority of the bodies, however, will be buried in this city tomorrow.

Thirty students from Columbia university, in New York City, who worked for over a month in the Daly-West to learn practical mining, left the mine two weeks ago and returned to the east.
